

Installer Registration Process

Any installation company that wishes to register and feature on the Phoenix Natural Gas (PNG) online directory must complete the following process.

Installer will make contact with PNG

The installer will be invited into PNG to complete the installer listing application form. The installation company at this point must provide the copies of the following documentation.

- 1- Appropriate qualifications and membership of the Gas Safety Register.
- 2- Current Public liability insurance with a minimum level of indemnity of Two million pounds sterling.
- 3- The name and addresses of three properties where the applicant has carried out gas works

A second interview is scheduled to finalise the application, to include additional information on PNG incentives and the completion of the registered installer listing

The application is reviewed by the Business Development Manager. If approved the details are then added to the trade directory and the Phoenix online directory.

A conformation letter is sent with details of their company membership to the Northern Ireland Natural Gas Association.
